

**The comments below, made by people who have done their CELTA course with us, highlight the quality of our training :**

"Doing the Celta course at Flying teachers continues to be an ever-rewarding experience for me. Despite the heavy workload and time pressure, the course programme was absolutely well-organised and made clear for participants on how to cope with its content. In addition to being a highly-skilled Celta tutor, Cris possesses that remarkable quality of being focused on the key techniques and strategies leading to successful results. Thank you Cris and Flying teachers for your support and dedication."

**Hiyam Tonazzi, from Brunnen**

« I attended a summer CELTA course at Flying Teachers in Zurich and was very impressed by the know-how and dedication of both our teachers Cris Vieira-Oberholzer and Anne Skulicz. The course was well-organized and professional, yet at no time impersonal. Classroom theory was immediately put into practice in regular trainings opportunities. After each session we received constructive feedback and guidance. The insights the course has provided have proven to be extremely helpful in structuring the courses I now teach and I would certainly recommend it to anyone interested in learning teaching methodology for adults.“

**Tessa Pfenninger, from Zurich**

„I'm a native speaker with (until CELTA) no formal teacher training and "just started" teaching English when I arrived in Switzerland. I think this is not such an unusual scenario! After 5 years I was wondering what my next step could be and this turned out to be the CELTA. The CELTA gave me the "nuts and bolts" of all the grammar I'd forgotten plus many new tools to teach adults. Most importantly, it gave me the chance to see our trainer, Cris Vieira, teaching in action. She had the utmost respect for - and genuine interest in - each and every one of us and this created a dynamic and comfortable, yet still very structured, learning environment.

The "what" and "how" she taught has filtered into my own lessons and I really consider it a privilege to have trained under her. „**Anna-Marie Stanger, from Reiden**

"The CELTA is a must for every hands on teacher. I've learnt so many techniques and exciting ways to make teaching English fun. I also learnt about how to integrate new technologies into class."

**Mirjam Winzeler, from Bern**

" It definitely made a difference in my career. Even though I'd already had teaching experience, I could learn a lot from the classes, the excellent tutors I had and also my colleagues. I strongly recommend CELTA at Flying Teachers."

**Erika Fauchere, from Lausanne**

„As a novice to the teaching field, I really appreciated the step-by-step teaching instructions given by the two tutors of Flying Teachers during the CELTA training. This efficiently organised course opened up a whole new world while giving me the confidence necessary to start my teaching career. All queries were taken seriously and answered systematically which created a dynamically healthy atmosphere. The constructive criticism given enabled me to continuously improve my skills throughout the course. Thank-you Flying Teachers! „

**Viviane Beyeler, from Ponthaux**
